Medical uses

Other uses

Saudi Food & Drugs Authority

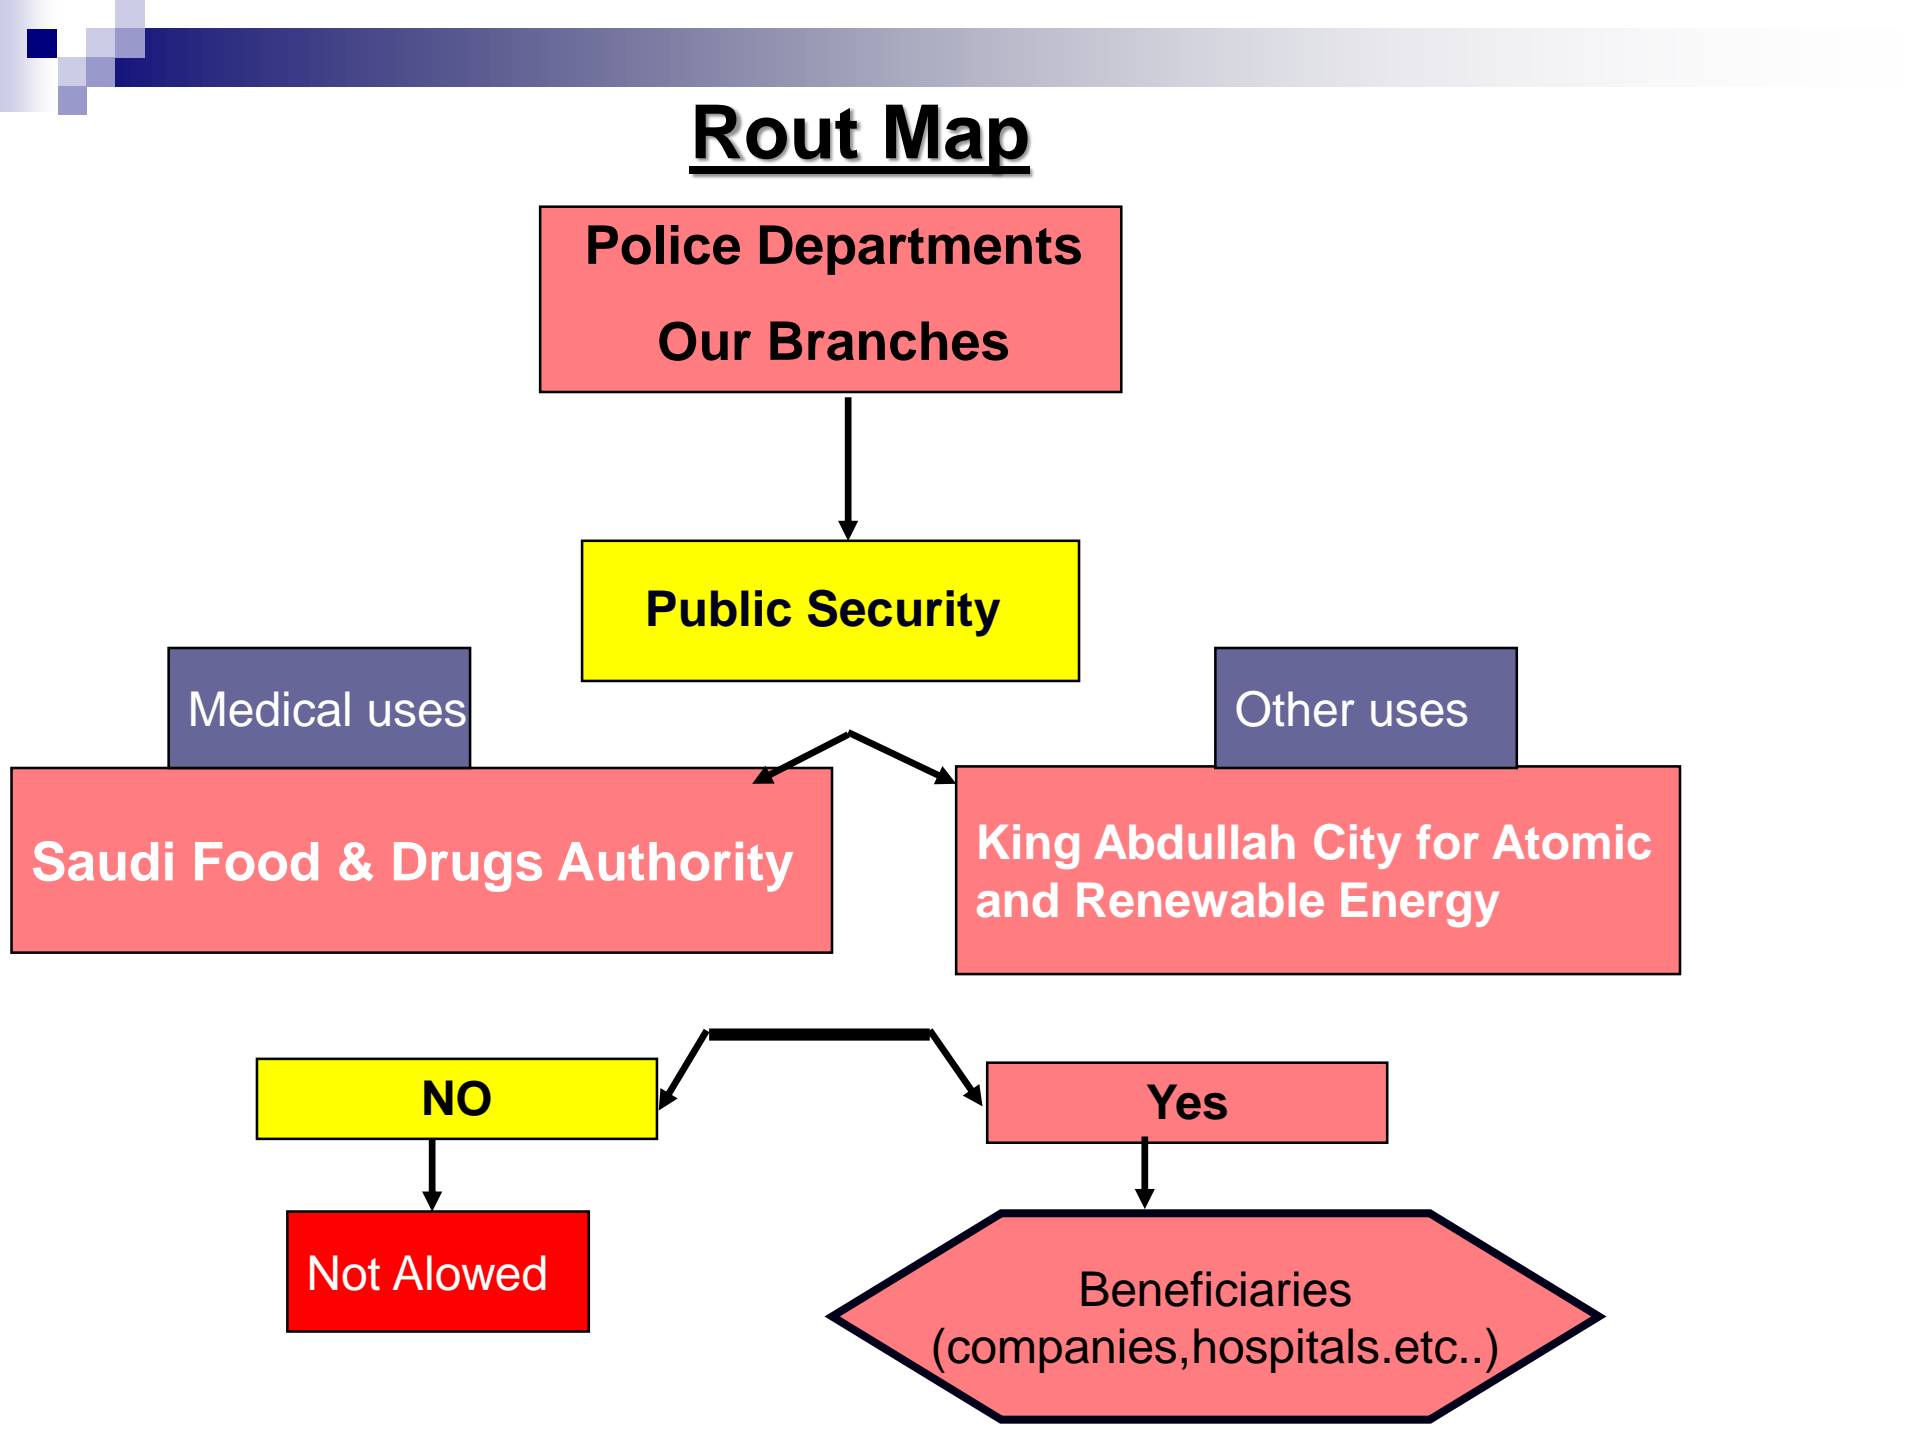

**King Abdullah City for Atomic
and Renewable Energy**

NO

Yes

Not Alowed

**Beneficiaries
(companies,hospitals.etc..)**

Main Tasks:

- Applying the regulations and instructions approved in the field.
- Issuing the import and export permissions of radioactive sources which used in civil applications:
 - ❖ industrial,
 - ❖ medical,
 - ❖ research,
 - ❖ educational
 - ❖ agricultural fields

- 
- Trace the sources of radioactive materials.
 - Annually reports to evaluate the situations .
 - Continuously communication with our branches (police departments).
 - Specific committees to solve any problems or urgent cases (stealing sources , a suspicious situationetc.)
 - Investigation and Analysing for all cases of radioactive materials.

General Considerations:

- ❑ To minimize any potential risks (**away from a wrong use**).
- ❑ To minimize any messy usage for this sources.
- ❑ To keep the radioactive materials under an appropriate control.
- ❑ To investigate, gather evidence and prosecute any offenders.
- ❑ Trace the sources of radioactive materials.

SAFE SITUATION

Thank You
